National Commission on Military, National, and Public Service,

82 people have signed a petition on Action Network telling you to Tell "The National Commission on Military, National, and Public Service" to Value All Youth Public Service the Same as Military Service.

Here is the petition they signed:

Commissioners,

We are so grateful that your mission is much broader than military recruitment alone, and embraces all forms of national and public service to foster a greater attitude and ethos of service among American youth and to strengthen our democracy.

We ask that the Commission recommendations to Congress include putting support for all forms of public service by youth on an equal footing with military service -- with comparable financial incentives, career opportunities, and benefits.

This would include youth civilian service programs like the Peace Corps, AmeriCorps, Job Corps, and other Corps Network programs, along with exciting possibilities for renewal of other successful programs similar to those we find in our inspiring history, like the Works Progress Administration and Civilian Conservation Corps.

This will truly encourage every American to be inspired and eager to serve, and will help to strengthen our democracy in powerful ways we so deeply need today.

Thank you!

It only makes sense to establish a national service program equivalent to military service with equal recognition and equal benefits. Much more could be said in support of the idea than can fit in this space.
